

Vamos

ready, set, vamos!

BRAND BOARD — WORKFLOW & PRODUCTIVITY

01 — LOGO

The mark

A hand-lettered "Vamos" paired with a confident sans "ready" — energetic, in-motion, unmistakably human. The V-crook doubles as a checkmark: momentum and completion in one gesture.

02 — COLOR

MINIMUM SIZE
24px for the app icon (square), 3.3in for the full
boxed in print. Never stretch the wordmark below
legibility of the "V!" checkmark stroke.

DO NOT
Don't recolor the mark outside brand palette, add
drop shadows or outlines, stretch the baseline, or
place it on low-contrast backgrounds.

PaLETTE

One warm signal color carries the brand. Neutrals stay warm-toned, never cold
gray. A soft success green and firm ink black separate task states without
competing with the orange.

03 — TYPOGRAPHY

Type system

Special Gothic Expanded One carries structure and confidence. Signature is
the brand's handwritten voice — used sparingly, for moments of
encouragement. Enter handles every word the product actually needs to say.

04 — VOICE

Get it done.

nice work today!

Vamos turns a long list into a short walk. Plan the day, knock out what
matters, and let the app nudge the rest forward.

05 — PRODUCT

How Vamos sounds

0	1	2	3
Energetic	Encouraging	Clear	Human
Short sentences. Present tense. Momentum over politeness.	Celebrate progress before posting it out is left.	One instruction per line. No jargon, no filler words.	Written like a human, never like a system message.

06 — IN PRODUCT

Applied to the workflow

The palette in use inside the app: warm paper background, orange for the one
action that matters, status pills reserved for state.
